

**ANCDS Business and Scientific Meeting  
November 2011**

The theme for the 2011 ANCDS Business and Scientific meeting is “Update on the Frontiers of Treatment for Persons with Neurogenic Communication Disorders”. The Education and Standards Committee has gathered together five individuals who have expertise in treating people across the age span and with a variety of communication disorders. Topics are Right Hemisphere Disorder (Dr. Margaret Blake), treatment for soldiers with TBI (Dr. Carole Roth and Ms. Sandy Starch), developmental dysarthria and cerebral palsy (Dr. Katherine Hustad) and pharmacological treatment (Dr. Alec Glass). The Committee is enthusiastic about the range of topics and presenters and we look forward to welcoming you to sunny southern California.

**Topics and speakers**

***Communication Disorders secondary to right hemisphere lesion***

Margaret Blake, Ph.D., CCC-SLP  
Department of Communication Sciences and Disorders  
University of Houston  
Houston TX

Katherine C. Hustad, Ph.D.  
Department of Communicative Disorders  
University of Wisconsin  
Madison WI

***Pharmacology and treatment for neurogenic communication disorders and movement disorders***

Alec Glass, M.D.  
Department of Neurological Surgery  
University of California, San Francisco Medical Center  
and  
San Francisco VA Medical Center  
San Francisco CA

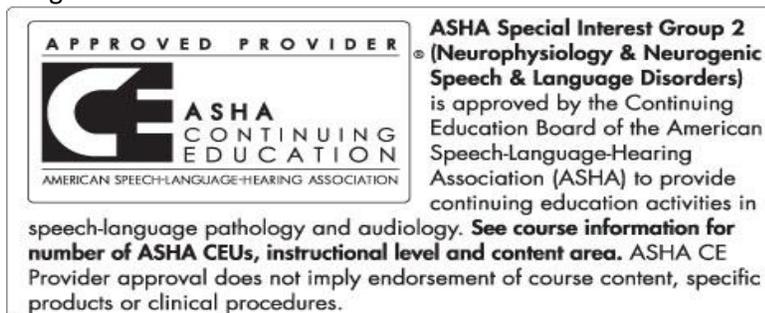

## Time ordered agenda

- 7:30 – 8:00 Registration and Breakfast
- 8:00 – 9:00 Business Meeting
- 9:15 – 10:45 Communication Disorders secondary to right hemisphere lesion  
Margaret Blake, Ph.D., CCC-SLP
- 10:45 – 11:00 Break
- 11:00 – 12:00 Grand Rounds  
Treating returning Veterans with TBI: Treatment soon after return from war  
Carole Roth, Ph.D., CCC-SLP
- Treating returning Veterans with TBI: Treatment in the chronic period  
Sandra Starch, M.A., CCC-SLP
- 12:00 – 1:30 Lunch and Presentation
- 1:45 – 2:45 Development dysarthria and cerebral palsy: Issues of intelligibility and comprehension  
Katherine C. Hustad, Ph.D., CCC-SLP
- 2:45 – 3:00 Break
- 3:00 – 4:30 Pharmacology and treatment for neurogenic communication disorders and movement disorders  
Alec Glass, M.D.

### Learning Objectives

- 1) List at least three underlying physiological elements of neurodegenerative disorders
- 2) State at least three pharmacologic treatment options and their limitations in neurodegenerative disorders
- 3) Describe at least three ways in which speech pathologists and neurologists can work together to improve patient quality of life, using Parkinson's Disease as a model

ANCDS Education and Standards Committee: Janet Patterson, Chair, Linda Shuster , Sandy Starch, Greg Turner

This course is offered for .5 CEU in advanced level, professional area.
